## IT IS PROFITABLE

### TEXAN MAY SUCCEED

Justice Moody on the United States Supreme Bench.

Washington, D. C., Sept. 12.—The name of Secretary Charles Nagel of the department of commerce and labor has replaced that of the late solicitor general, Lloyd W. Bowers, in the gossip of Washington regarding the expected appointments to the present and prospective vacancies in the supreme court of the United States. In the absence of President Taft and Secretary Nagel the subject must remain one of gossip.

The more apparent substance is given to the mention of Mr. Nagel because he hails from the Eighth circuit, which although it embraces thirteen states west of the Mississippi, has been without a representative on the supreme bench since the death of Justice Brewer, who was from Kansas.

Secretary Nagel was born in Texas in 1849, but has lived in Missouri nearly all his life. During the last few years he has been prominent in politics, having been an active member of the republican national committee during the campaign of 1908. Mr. Nagel's election to fill the prospective vacancy to be created by the resignation of Justice Moody is the talk.

### THREE TRAINMEN INJURED

On the Texas and Pacific at Hawkins, East of Marshall.

Marshall, Texas, Sept. 12.—The Texas and Pacific railroad had an accident today just before noon at Hawkins, east of Marshall. The wounded men were brought to Marshall on the north bound Cannon Ball train and taken to the company hospital.

### DRAFT OF PROPOSED LEASE

Washington, D. ### Car Repairers at Work.

Houston, Texas, Sept. 12.—All of the men employed in the car department of the Southern Pacific railroad in Houston, who have been on strike since Saturday, Sept. 3, returned to work this morning, and at the offices of the company here today it was stated that the men who walked out at Galveston and Lafayette also returned to work. A satisfactory settlement of the points at issue between the car employees and the company is anticipated. No date has as yet been set for the conference between the committee from the employees and the officials of the company, but the conference will be held before the end of this week.

### Locomotive Overturned.

Knoxville, Tenn., Sept. 12.—In an accident on the Louisville & Nashville railroad last night near Williamsburg, Ky., a locomotive of the passenger turned over, causing the death of Engineer Sudbury and Fireman Branch, both of Knoxville. Sudbury was crushed to death and Branch scalded so badly that his injuries were fatal. The accident was due to the broken lug on the tie rod of the switch. No other persons were injured.

### Cards For Postal Banks.

Washington, D. C., Sept. 12.—Secretary of the Treasury MacVeagh has been asked by the postal savings bank commission to authorize the printing of 1,500,000 stamp cards, which has been approved by the trustees. They will have on their face a fac simile of one postal savings bank stamp and may be purchased for 10 cents. When filled with nine more 10 cent postal savings stamps they may be used to open an account in the new postal savings banks. The cards will be handled in lots of one hundred and will be given out to the postal savings banks postoffices on requisition.

### Plowed Up Old Coins.

Karnes City, Texas, Sept. 12.—Mr. Frank Woods, who lives fifteen miles east of here, while plowing in his field plowed up twenty-five Spanish milled dollars, date from 1810 to 1812. How or when they got there is a mystery, but it is supposed that in the early '70s, while freight was being hauled from old Indiana to San Antonio by Mexicans, that they buried the money, but never returned to get it. The money is in a fine state of preservation and seems to be better silver than the present dollars.
